

Issues in Social and Environmental Accounting (Issues in SEA)

ISSN: 1978-0591

Associate Prof. Hasan Fauzi, Ph.D., Sebelas Maret University, Indonesia

CALL FOR PAPERS

Issues In Social and Environmental Accounting (Issues in SEA) is an international journal published biannually in July and December. *Issues in SEA* is networking and dissemination means of practices and theory of social and environmental accounting by people concerned with that field. In the journal, prospective authors can view the company's social and environmental performance from management or financial accounting perspective. The parties involved in this journal are scholars from so many countries, including: Indonesia, USA, Canada, UK, Mexico, Australia, New Zealand, Belgium, Ireland, Korea, Jordan, Mexico, Hong Kong, China, Austria, Malaysia, Japan, and India.

Problems of social and environmental in general and in accounting context in specific are not only local problem, but they have also embraced all over the world. It is necessary for us to share and cooperate to make better the corporate financial, social and environmental performance reflecting the three Ps: profit, people, and Planet. We highly hope you, as one of people who are very concerned with the dissemination of that field, can share to achieve this goal.

Issues in SEA is a peer-reviewed or refereed journal. All articles submitted by potential contributors from all over the world to the center (Indonesian Centre for Social and Environmental Accounting Research and Development (ICSEARD)) are administered by editors. They are then evaluated using the blind review method. From the result of peer-reviewing process the articles could be categorised as accepted for publication, accepted with minor revision, accepted with major revision, or rejected for publication. The Centre then produces the refereed articles by editorial boards and approved by editors advisors in form of the internationally accepted journal.
